

LIONFILL 50-ND

COMPOSITION:

Lionfill 50-ND is a combination protein based filler

SPECIFICATIONS

Appearance	Off White Powder
Activity	100%
Charge	Anionic
pH (10% Solution)	4.0 – 6.0
Storage Stability	1 Year at Room Temperature Optimum storage temperature is between 15°C and 30°C.
Lightfastness	Good

KEY PROPERTIES:

Lionfill 50-ND is a combination filler which promotes a round, well filled leather with tight break. Cutting efficiencies are increased at the customers factory as Lionfill 50-ND tends to fill flanks and improve the overall break while having no detrimental effect on dyeing.

The addition of Lionfill 50-ND is generally made 10 - 20 minutes prior to the addition of the fatliquor in the same bath. If the stock requires additional filling it is advisable to also add a small percentage following the fatliquor run.

- Fills and Tightens Grain and Flanks.
- Improves Break.
- Good Buffing Properties
- Firms Leather in Larger Quantities
- Good Dyeing Properties and Uniformity.

APPLICATIONS:

Recommended usage is 2% to 6% on Blue shaved weight.
